

Nilfisk UZ 878

Wet & Dry Vacuum Cleaner

**High capacity,
two speed versatility**

The UZ 878 features both practical design for easy and fast operation, as well as the versatility that can only be found in a high quality unit. Used for either wet or dry pick-up applications, the large tank offers high capacity for long use between emptying.

**Nilfisk
Advance**

setting standards

Power where you need it

Designed for heavy duty commercial applications with dual 1000 W motors for power and versatility. Easy to empty with a foot operated dump valve or an easy-tip and pour function.

The UZ 878 can be included in production lines for continuous suction or used as an emergency pick-up cleaner.

Wide range of options

For critical cleaning an optional HEPA filter can be supplied. Other options include a range of special application nozzles, fixed front squeegee and hose by the metre.

- Dual 1000 W motors for power and versatility
- Big 45 litre net capacity tank
- Easy emptying – dump valve, tip-over or lift
- Rust proof and corrosion resistant polyethylene tank
- Large rear wheels and front mounted castors for very good mobility
- Excellent filtration

High productivity thanks to quick pick-up, high capacity and fast emptying

Easy to manoeuvre and simple to operate

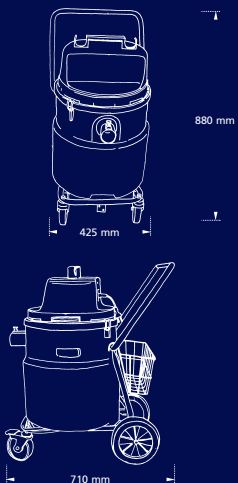

Easy to service, highly reliable and a non-rust tank
